| 10:00 – 10:45 a.m. | **Session #1**  
**Orthopedic Splinting**  
*Dr. Brandon Greene, DO*  
Chief of Pediatric Orthopedic Surgery, Niswonger Children's Hospital/Greenville Shriner’s Hospital for Children  
*Dr. Marc Aiken, MD*  
Orthopedic Surgeon, Watauga Orthopedics  
**Objectives:**  
1. Proper padding and splinting of upper extremity injuries  
2. Proper padding and splinting of lower extremity injuries |
|              | **Session #2**  
**The Difficult Airway**  
*Garik Misenar, MD, FACEP*  
Medical Director-Emergency Department, Johnson City Medical Center  
*Allen Dale Davis, NREMT-P, CCEMT-P, FP-C*  
Flight Paramedic, Wings Air Rescue  
**Objectives:**  
1. Discuss methods of obtaining and maintaining a difficult airway  
2. Review back-up airway devices |
|              | **Session #3**  
**Bare Bones Mobility: Mobilizing Patients Throughout the Spectrum of Care**  
*Scott Farmer-DPT*  
Clinical Physical Therapist, Johnson City Medical Center  
**Objectives:**  
1. Provide ALL health care practitioners with the knowledge to mobilize patients to enhance treatment effectiveness and maximize outcomes  
2. Provide ALL health care practitioners with the knowledge to mobilize patients to enhance treatment effectiveness and maximize outcomes  
3. Support the collaborative model of mobility in the health care environment |
| 10:45 – 11:45 a.m. | **Keynote Address**  
**Optimal Care of the Injured Child; 33 Years of Progress And A Brave New World of Opportunity**  
*Dr. Joseph J. Tepas III, MD, FACS, FAAP*  
Professor Emeritus of Surgery and Pediatrics, University of Florida College of Medicine, Jacksonville, FL  
**Objectives:**  
1. Review the evolution of modern principles of care for the injured child  
2. Discuss emerging opportunities to enhance the process of trauma care to even greater efficacy |

| 12:30 – 1:15 p.m. | **House of Pain: Identification, Management, and Treatment of Pain in Trauma**  
                      Vera Wilson, PharmD, BCPS, BC CCP  
                      Emergency Services Clinical Pharmacy Specialist, Johnson City Medical Center  
                      **Objectives:**  
                      1. Examine the current evidence of pain management for trauma patients in the pre-hospital setting  
                      2. Know first-line medications for acute treatment of pain and their potential side effects |
| 1:15 – 2:00 p.m. | **Topics in Pediatric Orthopedics**  
                      Brandon Green, DO  
                      Chief of Pediatric Orthopedic Surgery, Niswonger Children’s Hospital/Greenville Shriner’s Hospital for Children  
                      **Objectives:**  
                      1. Common pediatric orthopedic issues and how to manage  
                      2. When to refer to Pediatric Orthopedics |
| 2:00 – 2:15 p.m. | Break                                                                  |
| 2:15 – 3:00 p.m. | *Choose 1 concurrent session*  
                      **Session #1**  
                      Casting and Splinting Brandon Greene, MD and Marc Aiken, MD  
                      **Session #2**  
                      The Difficult Airway  
                      Garik Misenar, MD, FACEP and Allen Dale Davis, NREMT-P, CCEMT-P, FP-C  
                      **Session #3**  
                      Bare Bones Mobility: Mobilizing Patients Throughout the Spectrum of Care  
                      Scott Farmer-DPT |
| 3:00 – 3:45 p.m. | **All Bleeding Stops... Eventually**  
                      Mark Wilkinson, MD  
                      Medical Director, Wings Air Rescue  
                      VP/CMO NW Market, Mountain States Health Alliance  
                      **Objectives:**  
                      • Identify the patient at risk for significant hemorrhage  
                      • Understand current methodologies in hemorrhage control  
                      • List the indications for different hemorrhage control methods  
                      • Understand how blood products and TXA are used in the pre-hospital setting |
| 3:45 – 4:30 p.m. | **Sports Concussion: Pathophysiology, Diagnosis and Treatment**  
                      Tanzid Shams, MD  
                      Director of Neurology, Johnson City Medical Center  
                      **Objectives:**  
                      2. Clinical pathways and common myths in sports concussion management  
                      3. Connections between sports concussion and chronic traumatic encephalopathy |
| 4:30 – 5:00 p.m. | Closing Remarks |
